Summary

FullStack Software Developer, with a Business Administration and IT management background, a team player with proficient communication, leadership, and solving problems skills

Skills

- **Programming Languages:** JavaScript, Ruby, CSS3, HTML5, SQL
- **Software Technologies:** React, Redux, Rails, GitHub, Express, Node.js, Mongoose, AWS, Heroku, MongoDB, and PostgreSQL
- **Languages:** English and Spanish

Projects

[Sellsy](#) | [GitHub](#) | Ruby on Rails, JavaScript, React/Redux, PostgreSQL, AWS, Webpack, CSS3

Project Description

Inspired by Etsy, full-stack e-commerce, where users can sign up or sign in, search and add products to the cart

- **Rails API** is connected with **React** with **Webpack** through **JSON** for speed and convenience
- Ensured persistent and secure session (Sign in/Sign up) with **BCrypt** to assure users' privacy
- Implemented **AWS** to keep database secure, add multiple images, and keep app light
- Incorporated **CRUD** actions to create, edit and delete reviews and items in the shopping cart

[Pooch](#) | [GitHub](#) | MongoDB, Express.js, React, Node.js, JavaScript, CSS3, AWS, Heroku, GitHub

Project Description

Inspired by Tinder, this application allows matches and messages to set up a meeting for dogs playdates

- Utilized **Mongoose** library to build schemas to administrate data as **JSON** from **MongoDB**
- Constructed with **React/Redux** to develop custom components and manage state
- Fully responsive **UI/UX** design, created with **CSS3** with tools like flexbox and **pseudo-selectors**

[POSTrain](#) | [GitHub](#) | Vanilla JavaScript, CSS3, HTML5, Heroku, GitHub

Project Description

Inspired by the restaurant's POS systems. This software was developed to increased employees performance

- Utilized **Vanilla Javascript**, to exploit my own knowledge and the benefits of its performance
- Implemented with **query selectors** and appends to administrate data through **Javascript nodes**

Experience

[Telefèric Barcelona](#) | Server | February 2017 - July 2020

- Trained 50+ servers on Point of Sale (POS) system Upserve
- Served 80-100 people per day, 3 to 4 turnover of tables without losing focus, and great service

[Mona's Burgers & Shakes](#) | Restaurant Manager | July 2014 - January 2017

- Supervised and trained new employees, on average 90+ employees. Improving service by 30%
- Managed POS inventory, sales, and schedule weekly for 30+ employees

Education

App Academy | Fall 2020 | San Francisco, CA

Fullstack Software Engineering - Immersive software development Bootcamp (+1,000-hours program)

California State University, East Bay | Spring 2019 | Hayward, CA

Business Administration - IT management - in progress (8 credits to graduation)

Diablo Valley College | Spring 2015 | Pleasant Hill, CA

Associate Degree in Business Administration - Economics
